

**Are the growing
needs of IT support
becoming too much?**

Run your IT with
maximum uptime & availability.
We'll guarantee it.

Whatever your job role the burden of resolving day-to-day IT issues can seriously impact your ability to achieve targets.

OnyxCare removes the ever increasing strain of IT support by providing a single point of contact for all support issues. It's our aim to make IT support as painless as possible and help you to return to business as usual in the shortest possible time frame.

What are your symptoms?

IT Managers

Are simple issues preventing you from achieving more strategic targets?

Financial Directors

Is the cost of adding to your current IT department too much but you want the added flexibility and functionality?

Managing Directors

Do you need your IT function to help you achieve your business goals but feel that too much time is spent on an operational level?

HR Managers

Are the complexities of finding and employing talented IT staff becoming too much?

Your prescription – OnyxCare

OnyxCare is a unique service that can support your whole IT infrastructure and have you back on your feet quickly.

Our responsive and experienced team will support you with key issues such as:

- PC and operating system support
- Application support
- Server support
- Email issues
- Hardware maintenance
- IT roadmap reviews

Health Benefits
